“Alzheimer’s and the Law”

Too often when a loved one is diagnosed with Alzheimer’s disease, the spouse or family members remain uncertain as to how to proceed to protect their loved one’s assets. This informative presentation will:

- Consider goals of legal and financial planning;
- Review and discuss examples of legal issues that arise when a person’s competency is an issue; and,
- Analyze how Powers of Attorney and Guardianship apply to decision making for an individual with diminished capacity.

This event is open to North Shore Senior Center members, volunteers, and staff as well as the general public. Lunch is complimentary. Space is limited to 60 participants.

RSVP is required by November 7, 2016 to 847.784.6030.
